AI Summer Camp 2018 was held in Hanoi, Vietnam.

In 2018, the summer school name was changed to Al Summer Camp. It was held for the second time in Hanoi, the capital city of Vietnam. We introduced the format of this summer school at the 2017 International Conference on Machine Learning, where the participants in our last summer school gave their feedback. We received many comments and suggestions, and we tried our best to incorporate them into this year’s program. We hope that you will enjoy the Al Summer Camp as much as our last year’s participants did.

Looking back on the Al Summer Camp

For this year’s World Machine Challenge, the name “Al Summer Camp” was introduced. The reason was that when it was held last year, the name of the workshop program for local students remained the same, and it was difficult for them to participate. Therefore, we decided to change the name to “Al Summer Camp” to make it more appealing to the local community. Although the name change involved some additional work, we think it will be worthwhile for the participants.

In addition, we also made some changes to the program content. For example, we added a new topic on deep learning, which was popular at that time. Moreover, we received feedback from some students who found the previous lectures too advanced. Therefore, we have adjusted the difficulty level of the lectures to ensure that they are accessible to all participants.

As for the content of the lectures, we have invited speakers from various fields, including artificial intelligence, machine learning, and computer science. We have also provided opportunities for students to present their own projects and work with each other.

We would like to thank all the participants for their contributions and feedback. We hope that this year’s Al Summer Camp will be as successful as the last year’s, and we look forward to seeing you again next year.

Contact by faculty member

Please feel free to contact us if you have any questions or concerns about the program or the lectures. We are always here to help and support you.
